At first, it seemed only to mitigate the severity of the symptoms, but in a short time her health began evidently to improve. She continued her course of medicine, and found greatly improved the tone of the whole system. After having continued its use most of the time for twenty months, she is better health than she was able to go about the house and superintend affairs in a family. Under God we believe that to Dr. Ayer, alone, she owes the preservation of her life, and the restoration of former strength and energy We, therefore, cheerfully recommend the Cherry Pectoral, with universal confidence.

Whig and Courier.

John S Sayward.—Editor.

WEDNESDAY, APRIL 19, 1848.

☞ The Washington correspondent of the New York Express states that on Friday last, in the U S Senate a very warm, animated and interesting discussion sprang up, and was carried on by Messrs Calhoun, Bagby, Jefferson Davis and others, relative to the power of the general government, under the constitution, to construct works of internal improvement in the Mississippi river and its tributaries The bill under consideration made provision for the improvement of a dam at the head of Cumberland Island, in the Mississippi.

Mr Calhoun, in supporting it, went largely into the doctrines which he laid down at the great Memphis Convention, and contended that the doctrine that the south western States, soon to number a majority of this Union, with the vast inland seas running through them and bearing a greater amount of commerce than was carried on by all the Atlantic States, were not entitled to as much aid from the General Government as the States bordering on the Atlantic was absurd and could not be sustained — Mr Bagby and Mr Jefferson Davis tried their best to successfully oppose their strict construction and straight-laced notions to the great Carolinian arguments, but they were no more than pigmies in the lion's grasp Mr Calhoun spun them and their reasoning like a top, He was very much animated, and his eyes sparkled with more than their ordinary brilliancy, as he announced that, upon this question, more than any other, he had devoted the best energies of his mind

The discussion being brought to a close, the bill was put upon its passage, and was carried by an overwhelming majority, only eight Senators voting against it

☞ We have received several notices, recently, that the bundles containing our weekly paper had failed to reach their destination We regret this, and will supply the deficiency with other papers to the extent of our means It is some relief to the prospect, that our new Postmaster has adopted the suggestions we made to him a few days since, and secured the services of young Butler, the former clerk in the office He is straightening matters out about as they should be, and if every thing is not made right, it will undoubtedly be because some one interferes with his plans

As one of our suggestions has been adopted by Col Haynes—after some hesitation, to be sure, but when discovered that it was the best he could do—we shall try and make him at least one other suggestion, touching the law for advertising the list of letters The last list was advertised in the Democrat, of which Col Haynes is editor We dispute the right of the Postmaster to advertise in that paper under the law We deny that the Democrat has as large a circulation within the delivery of the office as has our paper We raise the question, and demand an examination If the Democrat is entitled by the law to the advertising, it ought to have it, and have it above all reproach, and without any imputations upon the honesty or fairness of the Postmaster If it is not entitled to it, then it ought not to have it, even if the editor be Postmaster, and the advertising would help his pocket and his party

We see it stated that the publishers of the Whig paper in Detroit have brought a suit against Mr Bagg, the Detroit Postmaster, to recover in damages the value of Post-office advertising, or the month of March, which had been given to the Free Press, the act of Congress directing it to be given to the paper having the largest circulation It was proved that the city circulation of the Advertiser was 512 and that of the Free Press only 335 The decision was against the Postmaster with an assessment of dammages for $17,96, being the value of the advertising for the month of March

The damages in Bangor would be something more than that probably, but we do not wish to see our Postmaster until we have reminded him of his duty, called his attention to the law, and suggested to him that honorable and fair dealing, and a decent respect to the law, require of him to ascertain which of the several papers published in the city has the largest city circulation, and to give to that paper the advertising of the list of letters

Come, Colonel, the first of May will be along pretty soon, and you should stir yourself in season to give the next notice according to law, and thus do what has not been done in the city since the law was enacted

☞ The Boston Traveller states that Cassius M Clay has written a letter of reproach and condemnation of Henry Clay, as a candidate for the Presidency The letter seems to have been called forth by Mr Clay's recent communication to the public, announcing his readiness to be a candidate for the Presidency Cassius says "Henry Clay can never be President of these States" Henry Clay's friends in Washington are said to regret the publication of his late manifesto, and some of Cassius' old friends speak of his letter in terms of the deepest regret and mortification

☞ Mr George B French of Gilmanton, while at work upon his wood, a few days since, discovered a gnarl upon one of the maple logs, bearing a striking resemblance to a venerable human face He has brought it, to the city, and we find the features of the face quite distinct, and the whole a great curiosity. Some declare it to be the bust of one of the ancient Lumbocosee of the Antiquarian Society It may be seen at this office for a few days.

☞ The Democrat of yesterday contains a notice of the Democratic Review for April, and a special reference to the article on "Joshua A Lowell, ex-Governor of Maine." The remarks upon Mr Lowell are very neat. There is a golden thread of Antiquarianism running through it, making it the delight of both Mr Lowell and of those who are disposed to laugh at him. From the position of Mr L's gigantic calf esteem and apprehend reason it all appears fair and complimentary, while from the position of the calm observer it is full of tittering fun and mock gravity, that makes the diaphragm dance in glee.

☞ Mr Bosworth, the most skilful grower of vegetables for the table there is in Maine, is now ready to supply all calls for orders, potatoes &c. He is one of the most truly deserving men in the city, and we trust he will be liberally remembered.

Later from Mexico.

United States steamship Mississippi, Commander McKenzie, from Vera Cruz 31st inst, via Havana the 8th, arrived at the Navy Yard Charlestown, yesterday afternoon The propeller Massachusetts, from New Orleans, with Mr Clifford, the American Commissioner, on board, was going into port as the Mississippi came out Well informed persons, in correspondence with the capital, were generally of the opinion that the treaty, as altered by our Senate would be ratified by the Mexican Congress

The Mexican civil authorities assumed their official duties at Vera Cruz on the 30th ult

The Vera Cruz Star of the 31st states, from good authority, that Santa Anna had sent to Col Hughes, stating that he had a passport and wished to leave the country Col Hughes, who is Governor of Jalapa, with some of his force, had gone to the hacienda of Encero, in order that Santa Anna would probably embark in the British steamer for Havana, and would proceed to Jamaica

The Mississippi brings home the body of Lieut Theodore B Russell, who died on board the Germantown in November last

It was generally rumored and credited at Vera Cruz, that the Navy Department has refused the request of Commodore Perry, for leave of absence

Commander McKenzie states that, previous to his departure, it was known that General Scott was anxious to leave Mexico at the earliest possible date and that, had he and Mr Trist arrived in season, they would have taken passage in the Mississippi They were daily expecting at Vera Cruz, and would probably return to the United States in the steamer Massachusetts It is also said that they would be likely to leave in a government vessel, for Norfolk or a northern port

We learn by Mexican papers received by the Mississippi, that Gen Valencia died of apoplexy at one o clock on the morning of 25th ult

The diligence which arrived at Mexico city, 22d ult was robbed on the way, about two miles from Puebla. Some Texans left in with the same party, and in a fight lost one of their men

The Free American of the 30th says the Minister of Mexico says not a word of the projected departure of Gen Scott The Court of Inquiry was still hearing the testimony in the case of Gen Pillow Major Burns, the author of the Leonidas letter, was the first witness. The papers are full of accounts of assassinations and robberies [Boston Courier.

Changes in the Cabinet

A letter from Washington (semi-official) to the Richmond Enquirer says

"I predict that Secretary Marcy will go minister to Russia, and that Gen Franklin Pierce of New Hampshire, will succeed him in the War Department, also, that as soon as these changes take place, Mr Gilpin, now solicitor of the Treasury, will be appointed Attorney General."

☞ A correspondent in the Mercury of Monday states, that a remonstrance has been addressed to the Mayor of the City against granting a license for theatrical exhibitions No license has ever been granted in this city for such exhibitions, and the laws of our State did not, previous to this year require any We allude to this subject merely for the purpose of relieving former administrations of the city government from any odium, on account of any sad and discomfort they may have been supposed to have given to theatres This year there can not be performances of this kind without a license

There is a very general wish among our people to be relieved, the present summer, at least, from the exhibitions and influence of "The Athenæum School of Morals" They wish, so far as possible, to effect a reform in the habits and character and prospects of the young men of our city, and they seek for the aid of all good and co-operating influences and ask to be delivered from all of an adverse character

☞ Our weekly paper of yesterday was a good number It contains a full report of Rev Dr Pomroy's Fast day sermon, on the Sins of Bangor, an able article on the Magnetic Telegraph, The Court Martial of Gen Scott, Highly interesting Foreign News, Hon John Sergeant's Letter, Editorials, Miscellany, General News, City Affairs, &c

Copies for sale at four cents each

☞ The Postmaster in Milton, Mass, is in the habit of charging ten cents postage on a less than half ounce letter from that place to this city Now Bangor is considerably Down East, but not more so, and, therefore, is not over three hundred miles from the town of Milton, aforesaid Will he please correct his table of distances

☞ Thanks to Jerome & Co's Express, also to Capt C Spear, the attentive and accomplished clerk of the Admiral for New York and Boston papers received yesterday in advance of the mail

The Horticulturist.—April 1848

We have received the April number of this excellent Magazine It opens with a plan and elevation of a small cottage, a beautiful little thing, convenient and cheap—simple and yet rather ornamental, and can be built here for something less than $400 We may sometime describe the particular mode of construction,

The following is the table of contents of the number, and it will be seen that the subjects discussed are important and interesting, and they are of a highly practical character, particularly the leading articals by the editor, on the Kitchen Garden, in which he gives valuable suggestions for ameliorating the soil —

[For the Whig and Courier.

Mr Editor:—

I propose, with your leave, to present to your readers, in this and some subsequent numbers,

Some plain Thoughts in relation to the Whig Candidate for President.

No 1

This question will be decided by the National Convention on the 7th of June next Editors and correspondents in all sections, are expressing their views, and it seems to have been deemed proper that the question should be publicly discussed in the newspapers. I confess, I have seen with regret, the warmth and eagerness, and almost bitterness, with which zealous advocates of different candidates have urged the claims of their favorites and opposed others

One of your late correspondents has announced that he and some other Whigs will not—or (as he terms it) cannot vote for General Taylor, if he is nominated, and he gives some of his reasons for this course I do not agree with him After full and mature reflection, I am persuaded that the best interests of the country, and of the Whig party, and the success and permanency of Whig principles, require the nomination of ZACHARY TAYLOR, as the candidate for President, at the next election I propose in this and some subsequent numbers to give some of my reasons, frankly and freely premising that I speak without authority from any quarter, and holding no party or person responsible, except myself

You well know, Mr Editor, that I have for years, been a warm and devoted friend of HENRY CLAY, and that I have stood unwavering in his support And I confess that if I had the power to determine the question, I should select him, without a moment's hesitation, to fill the executive chair I have no doubt that this is the general, if not universal, feeling of the Whigs of Maine and the Union But—and no man utters the unpleasant word with more regret than I do—but *there is not a fair prospect of his election* I know that his ardent and enthusiastic friends are restless and reproachful, when this allegation is made I know, I was, for a long time unwilling to yield up my wishes, and hopes and sanguine anticipations, in reference to our common favorite

But, again, it is our duty to look facts in the face, and to take counsel of our experience and our sober judgment, rather than of our hopes and preferences We have more than once had this hard lesson read to us, We ought to have it by heart We must learn it, and practice upon it too, if we would not again undergo the the mortifications and regrets of former years.

When a friend tells me that Mr Clay can be elected, if nominated, I reply, I hope so with all my heart, and I will not say I cannot vote for him And yet, I ask, how do you expect to elect him? Is there any State that voted against him in 1844, that will vote for him now? And are there not some States that voted for him then, that he will lose now? Perhaps my friend will reply, New York would have turned the scale in his favor in 44, and will now vote for him Is this at all certain? And do you remember that about sixteen new votes will probably be given at the next election, from Florida, Texas, Iowa, and Wisconsin, and that Mr Clay must obtain at least five of these votes with New York and all the States he has to lose, to elect him? He obtained Tennessee by one hundred majority only Can he count upon it certainly, or even probably, again? In Ohio certain for him, and what State that voted against him in 44 can he carry this year?

So far as Slavery and the incidental matters therewith connected affect the question, can Mr Clay expect any aid from Northern abolitionists? *Certainly not* If that band of politicians could and would stand out in the very bitterness of opposition to him, at the last election, when the admission of Texas and the extension of slavery were the issue, and when by voting for him, as they full well knew and understood, they could have struck a fatal blow to the further progress of the slave power and the admission of slave territory, what hope is there that one man of them will support him now?—They were warned, urged, and even entreated to sustain the Whig party in their avowed and pledged opposition to the annexation of Texas But their hatred, (for it well bear no softer term) of HENRY CLAY, overcame all other principles and feelings. And that faction, not blindly, but understandingly, gave their effectual support to Mr Polk, and secured his election And their joy and exultation at the defeat of Mr Clay and the Whigs, were unbounded and undisguised

On these heads rest, and will always rest, the responsibility of the casting vote that brought on Texas, and those subsequent proceedings by which slavery was established, the Mexican war commenced,—the insane thirst for territory excited and gratified,—and all the other items of the long catalogue of evils, which have flowed and will continue to flow from that ill omened result. And knowing and feeling and believing all this, they do not assert, (although they may not acknowledge it, because they shrink from the terrible responsibility)—yet have they ever, in any quarter shown any signs of relenting, or regret, even? Do they not, in the true spirit of fanatical hatred, glory in their deeds, and proclaim that they would do so again, and again? Is it uncharitable or unreasonable to say in view of their past conduct and present attitude, that if it could be clearly shown, that by uniting in favor of Mr Clay—and electing him it was certain that slavery would be established in every State in the Union—they would still oppose him, with the same bitterness and zeal whom they have always shown against him? This is plain language, but I believe it to be truth I can see not the slightest probability that a single political Abolitionist could be induced to vote for Mr Clay, under any circumstances.

Again How stands the Democratic party in relation to Mr Clay? I know that just now there is quite a calm—nay, that many of the leaders and editors of that party are lavish of their complimentary—and are not slow to tell the Whigs that they have a debt of gratitude to their old leader and that it would be a pity and a shame, if the Whigs did not nominate him again They have all at once become upon particularly respectful and extremely complimentary and disinterestedly zealous. But for some "Times Dozens, of these Democrats," (which, being freely interpreted, means do not like short white bony people.) They are more in their generation than the Whigs, such is the leaf fiction, which they fully killed of Mr Van Buren, before he was nominated—But let Mr Clay be nominated—said *presto*—change—will be the watch-word from Maine to the Rio Grande. No more compliments, no more regrets, no more sympathy. The whole artillery will be opened, gape, cannister, and round shot The old lies will be revamped, and new ones coined—the old stories new varnished, and with suitable additions—the old slanders—paraded in double capitals—all the old prejudices revived and strengthened—men, that have voted against Mr Clay so often, will be raised to sustain their consistency by defeating him again The whole Mexican War will be fought over, and all that Mr Clay has said and much that he never said will be charged, upon him

Barn burners and hunkers—the young and vigorous, and the old and conservative—every fanfun and every wanderer will rush together, and hold together, long enough to effect their single object—the defeat of Henry Clay

Everything will be forgotten, for he time at least, to this one great purpose Without himself will, if need be, ignore his "Province," and like our own Hannibal, "as near he never said it" Nothing can be hoped from the ranks of the Democracy (as it is called) but unrelenting and unremitted and united opposition to Mr Clay

Even the Editor of the "New York Tribune" the strongest advocate for the nomination of Mr Clay, is forced to admit, when speaking of the result of the election of Mayor in the city of New York a few days since, that all calculations based upon old issues in the ranks of the other party have proved illusory He says,—"However divided with respect to public policy or personal preferences, they are perfectly united in their affection for spoils Barn-burner and hunker, free soil and slave territory, nor any thing else, can interpose any effectual barrier against that appetite Let it be known that if they win the election, they will have several hundred offices to fill for, suited to all tastes and capacities, and they are pretty sure to poll all legal votes, and some over, as they did yesterday.

But it is said Mr. Clay will secure the votes of the naturalized foreigners, this time. Where is the evidence of this? What assurance have we, from any authentic source, that he will obtain more than the usual Whig vote from that quarter? In it is the fact, recently stated, that the Tammany Society in New York—so opposed the leaders of New York Democracy, is actively engaged in naturalizing thousands every year

We certainly want more evidence of a rush to Mr Clay's standard, than is to be found in an invitation to a dinner on St Patrick's day Mr. Clay, I have no doubt, would obtain it, if a candidate, a considerable number of votes from foreigners throughout a—but I see no proof that as a body they are coming in to his support.

May we not well suspect that it is a cunning device of the managers of the other party to bring about the cherished object viz. the nomination of Mr Clay, by the Whigs, to induce him and his friends to believe that he is to gain strength from a new quarter, rather than any serious design on the part of these voters, or those who influence them, to change their position

Wednesday, April 19th

The ice left our river during the night of the 18th, but without much or any damage to property on the shores, as many thought it would, from its unusual solidity and thickness at the "Narrows"

On Friday, the 14th, the steamer Terrapene made her appearance, with the first people of the season, since when about seventy-five sail have arrived, many of them with full loads of goods. A large number standing unloaded loads of dry lumber for over the Bangor, Stockton, &c vicinity, which is rapidly clearing the wharves of all lumber which has been wintered here The prospect for freights are finally established—never the equal to from $4,00 to $5,25, Boston 1,75 to 2,00, to Portland 1,50.

The mills above the city have many of them already commenced sawing, and a few rafts of green boards have arrived in our docks.

Several purchases from the west are in the city and others arriving daily

Times for sale figuring has been very dull, and it is feared that many of our logs may lie back, more particularly those on small streams.

In general, business looks better than was expected and daily are tempted that we shall have a good business season.

Strippings and Skimmings.

We are informed by Lady Physicians, that Dr. A. Anglin Mason is again at his post, in the Editorial chair, at South Hemingwayock. The Doctor's paper appears very lively, and is filled with his quaint notices and compliments, &c. &c. denoting a good degree of prosperity and ease. The Doctor says in Hemingwayock undoubtedly keep very fat cows, as he is supply the Editor with the richest of cream—perhaps when the Doctor intends to visit our city again? We hope he has no objection to walking deliberately among his patients in this section.

STAVE DRESSER.

THE Subscribers have in operation at Parker & Barbour's Planing Mill, near the Portland Railway, Judson's Stave Dresser It is believed this Machine involves the only principle that can dress a riven crooked or winding stave That it will do in a perfect manner and with a rapidity corresponding with these days of steam locomotion

It will dress three thousand hhd staves per day and more if you wish, and as many barrel staves as a man can handle

It requires two jointers to compete with the dresser, requiring only three men to attend the three machines, all is done in a hand-some manner the joints are perfect as can be so that coopers in New Bedford have purchased it for the purpose of manufacturing oil casks

The leading the machines is much less laborious than dressing staves in the usual way It will be seen from the above statement that shooks can be manufactured for half the expense incurred by hand

They are prepared to sell rights for the State of Maine, also for the State of New Hampshire

The Great Remedy for Gonorrhœa

GLEET, Stricture and all analagous complaints, is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union during the last 40 years His only reason for introducing the Paste in this public manner, is the, consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks

Dr D most solemnly affirms that during his practice of forty years the Paste has never, in one single instance, failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged, entirely cured

If the unfortunate instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste we should not see so many emaciated bodies and sallow countenances as we do at the present time

If in case the Paste should fail to effect a cure in the shortest possible time ten time the price paid for it will be given the purchasers on returning the empty boxes

For sale only by the original inventor and sole proprietor Dr PFEIFFER DOUGLASS at his Office No 55 Union street boston as 25 per box where he can be confidently consulted on every disease incident to the human frame and the patient fully upon the most beneficial course of treatment that can possibly be adopted

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Brigh

DEAR SIR—I have, untold, almost no occasion for your most amazing Pills I have used them any six years as occasion dictated; and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach From habitual costiveness and the vesting of nauseous and slimy bile I am completely relieved. The multifarious symptoms of Dyspepsia, with which I was once a ton well acquainted have so entirely passed away, that I hardly know why I there were Any one you can make of this or a more full development of my case, is at your service

Except in an obstinate case now back (Family Physician) and Pills have been, the only physician in my house for six years.

There are many of my friends afflicted, and more and more, who call for your Pills as a justly made wise, and for diverse cases. Yours truly,

Horatio Wallis.

CONSUMPTION CURED!

THROUGH THE SUCCESS OF

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY

FOR

COLDS, COUGHS, ASTHMA and CONSUMPTION

The most celebrated and INVALUABLE remedy for Colds Hoarseness, etc, is the CELEBRATED PULMONARY CONSUMPTION, or the HUNGARIAN BALSAM of LIFE discovered by Dr Buchan of London England tested for upwards of seven years in Great Britain and on the Continent of Europe and introduced into the United States under the immediate superintendence of the inventor

The astonishing success of the Hungarian Balsam, in the cure of every form of CONSUMPTION, warrants the American Agent in soliciting for it the notice of the community and that such relief in case from any of the complaints enumerated in the BOTTLES of LARGE SIZE is no quack nostrum but a standard English Medicine, of known and established character

TO THE CONSUMPTIVE!

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, as every person may by one bottle be restored to the enjoyment of health, or to be used as a preventive against the first cause of colds, coughs, spitting of blood, pain in the breast and chest, irritation and soreness of the throat, hoarseness, difficulty of breathing, hectic flush night sweats, exhaustion and general debility, asthma, influenza, hooping cough, and croup

In severe and confirmed diseases of the lungs, as many of them are pronounced incurable from a knight, at once become robust and full of energy to the influenza It immediately counteracts the malignancy of the fatal disease, when taken in the first stages of hectic cough

It will not be necessary for me, in consequence of the limits allotted to exhibit certificates of cures performed, but will refer you to the following, a few of the many hundreds that have been reported to us. So that cases which for those have been without children after using a few bottles of this invaluable medicine have been blessed with a healthy offspring

Dr Townsend—Dear Sir—Nearly twenty years ago I took a violent cold with the spitting of my lungs, and after one new night nurse, finally it became a constant hacking cough, but as it never gave me pain I did not trouble myself about it. Within the last few years it has increased gradually. At last I became fatigued—I breathed with difficulty, and almost with my cough which is shorter, and for the last two months gives me pain. Having your Sarsaparilla had regular night sweats, night, my friends and myself supposed that I would die with Consumption, but I have the happiness to inform you that, to my surprise after using this one bottle of your Sarsaparilla I had my health restored. I relieved me greatly by and I am now enjoying much better health than I have before in 20 years I had almost given up to my appetite, which is now restored. You are at liberty to publish this with my name on the cause of your choice.

My little girl, about six years old, had a very bad cough this whole of last Winter. We became very much alarmed on her account. A physician was called in, but he was of no benefit. I sent to your agent for a bottle of your Sarsaparilla. She was delighted with it, took three doses, and her skin is smooth and fair now, and I am satisfied she recovered her health from using your excellent medicine

S W COVANT, 411 Seventy.

GIRLS READ THIS

You who have pale complexions, dull eyes, blotches on the face, rough skin, and want of spirits," use a bottle or two of Sarsaparilla you will find it will tone your blood, remove the freckles and blotches, and give you animation sparkling eyes, fine spirits and healthful complexion—all of which are of inestimable value to unmarried ladies

GREAT FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumptions, Barrenness, Leucorrhœa or Whites, chronic and the difficult Menstruations, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of chronic ulcers or diseases produced by irregularity, disease or accident

Nothing can be more surprising than its invigorating effects on the human frame Persons suffering from broken down constitutions, from a slight, at once become robust and full of energy to the influenza It immediately counteracts the malignancy of the fatal disease, when taken in the first stages of hectic cough

It will not be necessary for me, in consequence of the limits allotted to exhibit certificates of cures performed, but will refer you to the following, a few of the many hundreds that have been reported to us. So that cases which for those have been without children after using a few bottles of this invaluable medicine have been blessed with a healthy offspring

Dr Townsend, My wife being greatly distressed by weakness and general debility, and suffering generally by a prolapsus and sensation of bearing down, falling of the womb and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such as I had I procured of Dr Johnson a bottle of your Extract of Sarsaparilla and followed the directions you gave me In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold It cures diseases without vomiting, purging, sickening or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other medicines is while it eradicates diseases it invigorates the body It is one of the very best Fall and Winter medicines ever known It not only purifies the whole system and strengthens the person, but it creates new pure and rich blood, a power possessed by no other medicine And in this lies the great secret of its wonderful success It has performed wonders the past two years, more than 5,000 cases of severe cures of disease at least 20,000 of these were called dead

More than 300 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,

RHEUMATISM

This Sarsaparilla is used with the most perfect success on Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, but entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen

☞ Hon Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it has excellent effects upon a chronic rheumatism from which I am subject from an injury received some years ago in a public stage Please send me two bottles to the care of Dr Sherman I have conversed with two of my principal physicians and recommend the Sarsaparilla SETH TERRY.

CONSUMPTION CURED

Cramp and Sore Throat, Consumption can be cured, Bronchitis Consumption Liver Complaint, Colds, Catarrh Cough Asthma Spitting of Blood Soreness in the Chest Hectic Flush, Night sweats Night Watchfulness Proffuse Expectoration Pain in the Side, &c, have been and can be Cured

Dr Townsend—Dear Sir—Nearly twenty years ago I took a violent cold with the spitting of my lungs, and after one new night nurse, finally it became a constant hacking cough, but as it never gave me pain I did not trouble myself about it. Within the last few years it has increased gradually. At last I became fatigued—I breathed with difficulty, and almost with my cough which is shorter, and for the last two months gives me pain. Having your Sarsaparilla had regular night sweats, night, my friends and myself supposed that I would die with Consumption, but I have the happiness to inform you that, to my surprise after using this one bottle of your Sarsaparilla I had my health restored. I relieved me greatly by and I am now enjoying much better health than I have before in 20 years I had almost given up to my appetite, which is now restored. You are at liberty to publish this with my name on the cause of your choice.

My little girl, about six years old, had a very bad cough this whole of last Winter. We became very much alarmed on her account. A physician was called in, but he was of no benefit. I sent to your agent for a bottle of your Sarsaparilla. She was delighted with it, took three doses, and her skin is smooth and fair now, and I am satisfied she recovered her health from using your excellent medicine

So that cases which for those have been without children after using a few bottles of this invaluable medicine have been blessed with a healthy offspring

Dr Townsend, My wife being greatly distressed by weakness and general debility, and suffering generally by a prolapsus and sensation of bearing down, falling of the womb and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such as I had I procured of Dr Johnson a bottle of your Extract of Sarsaparilla and followed the directions you gave me In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. Such this is an INTERNAL REMEDY—not an external application, and with one only case of Piles, either bleeding or blind, internal or external and probably the only thing that will. There is no mistake about it It is a positive cure—speedy and permanent It is also a convenient medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses, at $1 3 cts per dose, It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger—All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me., March 14, 1847.

Dr. Upham—Sir—I am desirous to express to you my thanks and best thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary I have been a great sufferer to the Bleeding Piles for 10 years past, as much so that I became reduced to almost a skeleton with loss of appetite, and general derangement of the digestive organs My case also became aggravated and so fatal was my misery to myself I was obliged to give up my business I had tried different physicians, but received no benefit, and the best advice the Doctors in Boston and the place could afford, spent much money—and twice submitted to painful operations I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you when I got half through, I found myself getting well still I kept on, and now I am a well man My dear Sir, I cannot express in the least my feelings thanks that I am once more restored to health, and now in a condition to support my large family, dependent on me.

You can use this letter as you please.

I remain respectfully, SAMUEL CHARLTON.

DISEASES OF THE

Throat and Lungs.

COUGHS and Colds the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy and many other dangerous diseases are too often neglected until the foundation of the fatal disease is laid deep in the system. A Physician is then called in, who administers a few Pulmonaries but declares the disease incurable, and the Patient in consideration of his opinion, dies That what does he die? Simply because he does not resort to the proper remedy but waits the every day death of a Parent or Brother with the useless experience and the most authentic testimony On this basis as the only true one, the efficacy of

W. VONDERSMITH'S INDIAN COUGH BALSAM AND LUNG BALSAM, by the use of which, all my symptoms have been removed and I am now wonderfully restored to the blessings of health, and the promise of a prolonged existence.

INFLAMMATION OF THE LUNGS.

New York June 19 1847.

Dr Vondersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c, for many years past. About four months ago I took a severe cold which settled on my lungs I was unable to procure any sleep during the day I had and night that I thought I could not possibly survive until I could get relief The excessive night sweats had reduced my whole body to a skeleton, I expected every hour to be my last, when I was induced to purchase a bottle of your Balsam, and before I had taken half of it I found relief, and by the time I had taken the contents of three bottles I was entirely restored to health, a blessing that I had not enjoyed for years, until the present time. Extremely believe that you made use of Dr Vondersmith's Medicine, that I would be unwilling to the dingy grave Therefore I believe that I am doing nothing but justice, in stating the above facts, so that you may show it to all the old and who may call upon you to doubt her or them I shall be pleased at any time to converse with the afflicted who may call upon me.

UNIVERSAL CONDITION MEDICINE

Read the testimony of an eminent Boston Farrier

Boston, January 9th 1846.

Messrs Ford & Grant Gentlemen—At the request of your Agents here I send you my opinion of your celebrated Dillow's Heave Cure As an *Universal Condition Medicine*, as well as a sure cure for the Heaves and all diseases arising from an Affection of the Stomach, Liver, Blood, and Nervous System in the same manner that Yellow Dock and Sarsaparilla operates upon the human system I would call the attention of the horse owning public to the fact, that more than two-thirds of the above Diseases are contracted through neglect during the Sensitive Season of change of the hair, which takes place during the most inclement seasons in the whole year, at which time, if the horse is exposed and neglected, the germs of the disease upon the constitution of the animals. If left in that condition, Disease in some form, must ensue It is at the time that I recommend your Invaluable Powder indispensable, as it operates upon the pores and Fibres of the Skin, and causes the old hair to fall off in due time, makes way for the new and imparts to it a fine and glossy appearance

CAUTION —The astonishing success of Dillow's Heave Cure for the last two years, in the United States, has induced several persons to imitate and counterfeit it, and they even go so far as to mention the public against it and endeavor thereby to palm off their nostrums as the only genuine article We declare that *Dillow's Heave Cure* is the first article of the kind ever introduced in the United States, and we hereby offer the sum of *One Thousand Dollars* to any person, or persons who will prove to the contrary Consequently all others must be imitations
